Express™
Height Adjustable Table

Quality. Performance. Value. Speed.

The Express Height Adjustable Table offers features and quality you would expect in a more expensive model — and it ships in as little as three* days. Sit or stand, the smooth, speedy adjustment responds easily to your table height preference. It's quietly powered by two hidden motors within the legs that help prevent noise distractions. Plus, its clean, simple design can be specified in all Trendway laminate colors to blend beautifully with any interior.

Ships in 3 Days!

RESET   ***PERFORM RESET BEFORE 1ST USE***

■ Press both ▲ and ▼ buttons at the same time until both columns are in lowest position.

■ Display will show "000" while conducting reset.

■ When control box beeps, the buttons can be released and reset is complete.

NORMAL OPERATION

■ Press any button and display shows current height in centimeters (cm).

■ Press ▲ or ▼ button to adjust the height.

■ When no button has been pressed for 30 seconds, the system goes to <0.1 W standby mode, and the display turns off.   Press any button to wake the system and display the current base height.

CHANGING STARTING HEIGHT

■ The default starting height is 25".

■ To adjust the starting height, press ▼ button until reaching lowest position.   At the lowest position, press ▼ button again for 5 seconds until display starts flashing for 10 seconds.

■ During this time, press ▲ or ▼ buttons to adjust height to preferred starting position, and then press ▲ and ▼ buttons together for 3 seconds to store this position.

■ Display stops flashing and the new starting height is shown in the display.

■

SETTING & USING MEMORY PRESET POSITIONS

■ Operate the desk to preferred height.

■ Press any of ①②③④ together with ▲ or ▼ for 2 seconds to store the current height. Display shows P1/P2/P3/P4 when the position has been stored.

■ To return table/desk to a stored position, hold the memory preset button ①②③④ until the desk reaches the stored height.

■ Memory presents can be overwritten with a new position at any time.   Positions are removed, only overwritten.
